## Subjects.

A

AERIAL Ropeway, New Type, Main Ropeways, Ltd., 256, 262

**AERONAUTICS:**
"Singapore" All-metal Flying Boat, Short Brothers, Ltd., 131
Westland Aircraft Works, Yeovil, 200, 204

AIR Compressing Set, Portable, Reavell and Co., Ltd., 117; Ships' Winch Worked by Compressed Air, Reavell and Co., Ltd., 117
Air Compressor, Portable, Broom and Wade, Ltd., 18
Air Heater and Economiser, A. E. Leek, 462; (Corrections), 495
Aluminium, Centenary of, W. H. Haldane Gee, 649
Aluminium Stay, Mould, and Test Pieces, with Wood's Metal Heads Cast On, 272
Arc-welded Connections for Steel Structures, Tests of Strength, 378
Automatic Surveying and Levelling Machine, J. H. Williams, 518, 519
Auto-Truck Driven by Air-cooled 1¼ H.P. Petrol Engine, A. Lister and Co., Ltd., 62

B

BARRAGE, Nag Hammadi, 251, 250
Bilge Pumping Arrangements, Emergency, Sterry B. Freeman, 635
Bituminous Macadam Plant, "Jacta," Goodwin, Barsby and Co., Ltd., 627
Boiler, Cochran and Co., Ltd., with Superheater Arrangement by T. Sugden and Co., Ltd., 78
Boiler and Furnace at Avon Station, 444
Boiler "Normal" at Crawford-avenue Power-house, 360
Boiler, Radiant, Vertical Water-tube, for Powdered Fuel, Engineer-Captain J. C. Brand, 65, 77
Boiler-house, High-pressure Boiler Unit, &c., at Merwedekanaal Power Station, Stork Bros., 32
Boiler—*see* also Mercury
Bottle-making Machine, Large British, F. Redfern and Metropolitan-Vickers Electrical Company, Ltd., 3, 14, 48
Bridge, New Road, Newcastle and Gateshead, 728, 740
Bridge, New Tournelle, Over the Seine, 436
Bridge Over the River Don, Strengthening, 346
Bridge, The Mokau, Taranaki, New Zealand, 171, 178
By-Product Producer Gas Plant in Northern Rhodesia, 230, 234, 235

C

CANAL—*see* also Ship
Central Heating Plant at a Hertfordshire Hospital, 730
Circulator for Hot Water Heating Systems, Holden and Brooke, Ltd., 238; (Addendum), 263
Coach—*see* also Motor Vehicles, Commercial, at Olympia
Coach Washing Machine, London Underground Railways, 492
Coal Hoists, Hydraulically-operated, Sir W. G. Armstrong, Whitworth and Co., Ltd., 184, 185
Coal and Iron Company, Staveley, Blast-furnace Gas Power Plant and Plan of Works, 561, 570
Colliery, Ardenrigg, Aeriel Ropeway at, 62
Colliery, Arley—*see* Decking Plant
Compressed Air Meter, New Form of, E. J. Laschinger, 747
Concrete Cylinders for Mokau Bridge, Constructing and Lowering, 171
Concrete Mixer with Hoist, Winget, Ltd., 592, 593
Concrete Mixers, Marshall-Becton, 61, 593, 594
Concrete Mixer, Ransomes and Rapier, 627
Concrete Mixer, with Turntable and Shute, Winget, Ltd., 592
Concrete—*see* Reinforced.
Condensers at Hell Gate and Sherman's Creek, 141
Condensers for Power Factor Correction, Telegraph Condenser Company, 286; British Insulated Cables, Ltd., 314; Dubilier Condenser Company, Ltd., 314, 315
Continuous Combustion at High Pressures, E. C. Wadlow, 704
Crane, Constant-radius Luffing, Surrey Engineering Company, Ltd., 548
Cranes, Erecting, for Sydney Harbour Bridge, 476, 484 (*Two-page Supplement, October 28th*, 1927)
Cranes, Level-luffing Jib, Edward G. Fiegehen, 222, 246
Culverts, Main Sluicing, at Gladstone Docks, 92
Cutting Temperatures, Effect of, on Tools and on Materials Subjected to Work, E. G. Herbert, 650

D

"DEAERATED Concrete" Making Machine, Metal Trades Technical, Ltd., 626
Decking Plant, Automatic, at Arley Colliery, Warwickshire; Westinghouse Brake and Saxby Signal Company, Ltd., 101 (*Two-page Supplement, July 22nd*, 1927)
Diary, American, 113, 140, 166, 167, 194, 220, 246, 272, 298, 328, 360, 386, 414, 444, 472, 500, 528, 556
Docks, Gladstone, Liverpool, 92, 96
Drainage and Irrigation of La Camarge, 224
Drill, Portable Petrol Engine-driven, Major P. C. Bird, 694

E

**ELECTRICAL MATTERS:**
Alternator, 10,500-Kilowatt Slow-speed, Siemens-Schuckert, 310, 319
Alternator, 13,330 kVA Vertical Water-wheel, Metropolitan-Vickers Electrical Company, 716
Avon Power Station, 444
California, Turbo-electric Liner Equipment, 454, 461
Changing of Tappings on Loaded Transformers, 235
Colfax Power Station, Duquesne Light Company, 299, 300
Columbia Power Station on the River Ohio, 328
East River Station, New York, 166, 167
Electrical Testing Plant, 1,000,000-Volt, 603
Insulators, 500,000-Volt and Other, 604
Testing Automobile Forgings, Methods of, 604
Torsion Dynamometer for Testing Bearing Friction, 604
Electricity Scheme, Sub-stations, &c., Mid-Cheshire, 588, 600
Electrode Steam Generators, Oerlikon Company, 183
Ferrybridge Electric Generating Station, Yorkshire Electric Power Company, Power Station and Switch House; Circulating Pump Motor Room; Circulating Water Intake Building; Coal-handling Arrangements; Control, Push-button; Interior of Boiler-house; Inclined Belt Conveyor; Shuttle Belt Conveyor; Oil Circuit Breaker; Revolving Disc Circulating Water Strainers; Switch Gear; Turbo-generator House; Tippler Discharging Coal Wagon; Wharf Showing Coal Receiving Arrangements, 88, 489, 490, 503, 504, 532, 540
Hell Gate Power Station, "Heat Balance" Lay-out and Superheater Element, 113
Lanarkshire Hydro-electric Power Scheme, 364, 370, 394, 417; Electrical Equipment at Bonnington and Stonebyres Stations, 394, 417, 419, 420 (*Two-page Supplement, October 14th*, 1927)
Merwedekanaal Power Station, 32, 58, 70
Motors, "Maxtorq," Lancashire Dynamo and Motor Company, 100
Outdoor Sub-stations, Lay-out of Various Types; Circuit Breakers, 110 kV Three-phase Oil and Others; Air Break Switches; Switch-fuse Equipment, English Electric Company, Ltd., 562
Power Factor Correction, Condensers for, Telegraph Condenser Company, 286; British Insulated Company, Ltd., 314; Dubilier Condenser Company, Ltd., 314, 315
Power Factor, Meaning of, Model for Demonstrating, R. W. Adams, 212
Propelling Motors for the Electrically-propelled Passenger and Cargo Liner California, General Electric Company, U.S.A., 282, 285
Queenston Power Station, 472, 474
Rural Electrification, Transformer Pillars and Kiosks, Fife Electric Power Company, 743
Shannon Power Scheme, 618, 646, 658, 674, 686, 702
Sherman Creek Power Station, 140
South Wales Power Transmission Scheme, Outdoor Sub-stations, Intermediate Supporting Tower, &c., 127
Stator Frame, Building up; Welded Stator Frame; Steel Generator Frames being Welded; Welded Top Frame for Circuit Breaker, General Electric Company's Works, Schenectady, 500, 501
Stoke-on-Trent Power House Extensions, 544
Trenton Channel Power House, Boiler-room; Lay-out of Steam Pipes, 414, 415
Turbo-generator, 16,000 kW, Stork-Erste-Brunner, at the Merwedekanaal Power Station, 58, 70
Virginian Railway Locomotives, Phase Converter, 2000 kVA, Traction Motor and Motor-driven Air Compressor, Westinghouse Electric and Manufacturing Company, 186
ELEVATING Platform Truck, Electricars, Ltd., 182

**ENGINES AND MOTORS:**
Airless Injection Oil Engine, 675 B.H.P., Campbell Gas Engine Company, Ltd., 156
1850 B.H.P. Beardmore-Tosi Six-cylinder Supercharged Marine Oil Engine, 545, 546
Crude Oil Engine, 50 B.H.P., Breech End, Relief Valve, &c., Robey and Co., Ltd., 10
Double-acting High Pressure Engine for Steam Wagon, Fodens, Ltd., 39
Heavy Oil Engine, 120 B.H.P., Davey, Paxman and Co., Ltd., 12
Hopper-cooled Oil Engine, 10 H.P., Blackstone and Co., Ltd., 654
Leyland Six-cylinder 105 H.P. Omnibus Engine, 535, 536
Motor Car Engines—*see* Motor Cars
Oil Engine Driven Generator Set, 165 kW, Ruston and Hornsby, Ltd., 19
Petrol Engine, 1¼ H.P., R. A. Lister and Co., Ltd., 62
Petrol-paraffin Engine, Ruston and Hornsby, Ltd., 38
Single-cylinder Oil Engine, 2000 B.H.P., Fiat Stabilimento Grandi Motori, 261
Two-stroke Heavy-oil Engine, 70 B.H.P., Petters, Ltd., 576
Petrol Shunting Engine—*see* Locomotives
ENGINEERING Work in a Provincial Stores, Messrs. Lewis's, Ltd., 42, 47
Excavator, Half-yard, Self-propelling Caterpillar, Denholm Contractors' Machinery Company, Ltd., 574
Excavator, as a Skimmer Scoop, Petrol-paraffin Drive, Ruston and Hornsby, Ltd., 626

**EXHIBITIONS:**
Commercial Motor Vehicle Exhibition at Olympia, 566, 596
Engineering Materials Conference and Exhibition at Berlin, 603
Motor Car Show at Olympia, 430, 451, 491
Public Works, Roads and Transport Exhibition, 574, 591, 626; for Exhibits, *see* Various Headings; for Congress, *see* Miscellaneous Index
Royal Agricultural Society's Show at Newport, Mon., 10, 38, 60
Shipping and Engineering Exhibition at Olympia, 275, 303, 331, 375 (*Twenty-page Supplement, September 9th*, 1927); for Names of Exhibitors and Exhibits, *see* Separate Section of Index
Smithfield Club Show, 654
EXPLOSION Experiments, Nusselt's Closed Vessels for, 459, 460

F

FERRY—*see* Ships
Flying Boat—*see* Aeronautics
Fuel Preparing and Steam Generating Equipment, Boiler Unit, Mill House, at East River Station, New York, 166
Fuel—*see* Pulverised
Furnace Curves, Characteristic, as an Aid to Fuel Control, H. C. Armstrong, 445

G

GALE Damage at Colwyn Bay, 172
Gas, Blast-furnace, Power Plant at Staveley Coal and Iron Company's Works, 561, 570

Gas Producer, Parker Producer Gas Plant Company, 37
Gas—*see* Producer
Gear-box Noise-testing Machine, Highfield Electrical Company, Ltd., 690, 691
Gear, Derricking; Gear, Dray Chain Safety; Hauling Winch for Undercarriage, at Sydney Harbour Bridge, 477
Gear Wheel Teeth, Testing the Hardness of, Vickers, Ltd., 635
Glass Bottle-making Machine—*see* Bottle
Graphical Analysis of Stress, H. W. Swift, 226, 227
Grooving Machine for Coned Wheels, Milling Machine Adapted for; Change-speed Gear; Cutter, Work and Machine Details, P.I.V. Chain Gears, Ltd., 280

## H

HALL of Industries, Kelvin, at Glasgow, W. L. Scott, 66
Hammer, Electro-mechanical, Kango Company, Ltd., 666
Heat—*see* Transfer
Heating Arrangements in a Large Stores, Henry Lea and Son, 42, 47
Hydraulic Ram, The Vulcan, Green and Carter, Ltd., 12
Hydro-electric Power-houses in British Columbia, 622, 630
Hydro-electric Power Plant at Grand Falls, Canada, 454, 456
Hydro-electric Power Scheme, Lanarkshire, Bonnington and Stonebyres Stations; Automatic Tilting Weirs and Intakes; Electrical Equipment; Turbines, Plans and Details; Turbo-generators, 4000 B.H.P. and 7000 B.H.P., 364, 370, 394, 417 (*Two-page Supplement, October 14th*, 1927)
Hydro-electric Power Scheme, The Gatineau, Quebec, 194
Hydro-electric Power Scheme, The Shannon—*see* Electrical Matters

## L

LATHE, Capstan, Re-designed, Alfred Herbert, Ltd., 580; (Correction), 608
Lathe, Wheel, Pneumatically-controlled, Noble and Lund, Ltd., 736, 737
Lighthouse—*see* Wireless

**LOCOMOTIVES:**

Baldwins Engines:
Goods Engine, A.T. and S.F. Railroad, 221
Passenger Engine, Mountain Type, Denver Railroad, 221
Passenger Engine, Pennsylvania Railroad, 220
Passenger Engine, Richmond and Washington Railroad, 221

**Electric Locomotives for Main Lines:**

Italian State Railways (Milan–Varese), Direct-current Locomotive, 86
Italian State Railways, Three-phase Low-frequency Locomotives, 86
Italian State Railways, Three-phase Normal Frequency Locomotives, 116
GEORGE Stephenson's Killingworth Locomotive, Model of, 212
Great Northern Railway of America, Single-phase Electric Locomotive, Main Traction Motor, Motor Generator and Connections, 366, 367
G.W.R. Four-cylinder Express Locomotive, 8
Illinois Central Railroad:
Christman Hub Liner and Lubricator, Spring Arrangement of Four-wheeled Truck, 386
Eight-coupled Locomotive, Eight-coupled Engine No. 7000, Du Pont Simplex Stoker, 387
L.M. and S. Railway, Three-cylinder Express Locomotive Royal Scot, 154, 155, 390, 391 (*Two-page Supplement, October 7th*, 1927)
L. and N.E. Railway Locomotive with High-pressure Boiler, 237
Oil-driven Shunting Locomotive, John Fowler and Co. (Leeds), Ltd., 38, 627, 654
Petrol Locomotive, 31 H.P., J. and F. Howard, 11
Petrol Locomotive, "Montania" Type, Wm. Jones, 591
South African Locomotives, 677, 678
Sudan Government Railways, Mixed Traffic Locomotive, North British Locomotive Company, Ltd., 516, 517
Three-cylinder Compound Locomotive, Experimental Results from, Lawford H. Fry, 706, 714, 718, 731
Virginian Railway Locomotives, Electrical Equipment of, 186
LOCOMOTIVE Cylinders, Machine for Dealing with, H. W. Kearns and Co., Ltd., 403
Lorry, Six-wheeled Steam, Richard Garrett and Sons, Ltd., 655
Lubricator, Forced-feed, Sight-feed, Petters, Ltd., 654, 655
Lubricator, Rotary Sight-feed, E. T. White, 547

## M

**MAPS:**

Cheshire, Overhead Lines and Sub-stations, 588
Electrified Railways in Italy, 30
Electrified Railways in Northern Italy, 32
Ireland, Map of, Showing Transmission Lines and Sub-stations, 618
**MAPS** (*continued*):
La Camargue District, 224
Nag Hammadi Barrage, Map of the Nile Showing Position of, 250
Tâf Fechan Water Board Supply Area, 113
MERCURY Boiler Unit 557; (Letter), 638
Mercury Turbine Plant, 10,000 kW, 536
"Midget" Tamper, B. Johnson and Son, 576
Model to Show Remedial Works at Niagara Falls, 472, 473
Monocable Aerial Ropeway at Ardenrigg Colliery, 256, 262

**MOTOR CARS AT OLYMPIA:**

Alvis Car, 14–75 H.P., Chassis and Engine, 430, 431
Armstrong-Siddeley Car, 15 H.P. Six-cylinder, Magneto and Carburetter Sides, 433
Bean Car, 14–40 H.P., Engine, Gear-box and Spring Bracket, 430, 431
Beverley-Barnes, 18 H.P., Eight-cylinder Car Engine, 491
Lea Francis Car, 12 H.P. Supercharged, Car and Chassis, 453
Rover Car, 2-Litre Six-cylinder, Detachable Cylinder Head, Engine, Gear-box, Oil Pump and Lubricating Arrangement, 431, 432
Star Car, 18–50 H.P., Engine, Liner Arrangement, 433
Triumph, 7 H.P. Car, Engine, 452
Vulcan Car, 16–60 H.P. Six-cylinder, Saloon, Free-wheel Device, 452
Westinghouse Brake and Saxby Signal Company, Vacuum Servo Brake, Control Valve, Cylinder, and Arrangement, 453, 454
Wolseley Car, 21–60 H.P. Eight-cylinder Engine, 451; Saloon, 451

**MOTOR VEHICLES, COMMERCIAL, AT OLYMPIA:**

566, 596
Chassis Fitted with Gas Producer, Berliet, 596
Chassis, Six-cylinder Sleeve Valve Engined, Karrier Motors, Ltd., 596, 597
Chassis, Six-wheeled Drive, F.W.D. Lorry Company, 566, 567
Chassis, Six-wheeled Petrol-electric, 36–95 H.P., Tilling-Stevens, 566, 567
Chassis, Six-wheeled Steam Wagon and Bogie, Sentinel Waggon Works, Ltd., 568
Motor Vehicle with Power Unit Withdrawn, Lacre Motor Car Company, Ltd., 576
Omnibus, Six-wheel Electric Trolley, Richard Garrett and Sons, Ltd., 598
Parlour Coach, 70 H.P. Low Load Line, Dennis Brothers, Ltd., 596

Truck—*see* Elevating
"Tructractor," Millars' Machinery Company, 575, 576
Turbine, L.P., and Condensers at Crawford-avenue Power House, 360
Turbine, Marine Exhaust Steam, Recent Developments of, Dr. Gustav Bauer, 692
Turbine Room, at Queenston Power Station, 472
Turbine, Stork-Erste-Brunner Maschinenfabrik, for Merwedekanaal Power Station, 58, 70
Turbines at Colfax, 60,000-kW Three-shaft, 299
Turbines for the Lanarkshire Hydro-electric Power Scheme, 364, 370, 394, 395, 417 (*Two-page Supplement, October 14th*, 1927)
Turbines, Water, Pelton Wheel Type, Escher Wyss and Co., 716
Turbine—*see* Mercury
Turbo-alternators and Turbo-generators—*see* Electrical Matters

## U

UNIT Heaters, New Types of, Musgrave and Co., Ltd., 568

## V

VALVES—*see* Steam Valves

## W

WAGON, 6-Ton Steam, with Asphalt Mixing Cauldron, Fodens, Ltd., 627, 628
Wagon, 6-Ton Undertype Steam, Fodens, Ltd., 39
Water Heater, Automatic, Rund Manufacturing Company, 352

**WATER SUPPLY:**

Newport, Mon., New Source of Supply for, 402; (Addendum), 439
Portsmouth Waterworks, Havant New Pumping Station—*see* Pumps
Reservoir and Works, Tâf Fechan, 113, 124, 144, 150; Draw-off Valve Tower, 144; Water Treatment House and Plant, 146, 147
WAVE-POWER Machines, Lieut.-Commander L. Smith, 549
Wheel Wobble, Cause of, Dr. Telford Petrie, 676

**WIRELESS TELEGRAPHY and TELEPHONY:**

Audio Resonant Wireless Reception, 148
Lighthouse and Wireless Mast on Round Island, 225
Wireless Beacon Station Equipment, 500 Watt, Marconi's Wireless Telegraph Company, Ltd., 225
WOOD Cellulose Mill, Kipawa, Canada, 738
Wood-working Machines:—(1) High-speed Planing, Matching and Moulding Machine; (2) Surfacing, Thicknessing and Sizing Machine, Thomas Robinson and Sons, Ltd., 662, 663, 664
Worm-gear, Balanced, Drive for Ship Propulsion, J. Stone and Co., Ltd., 665

## Y

YACHTS—*see* Ships

## Supplements.

CRANE Equipment for Erecting the Sydney Harbour Bridge (October 28th, 1927)
Electro-pneumatic Decking Gear at Arley Colliery, Warwickshire, Westinghouse Brake and Saxby Signal Company, Ltd. (July 22nd, 1927)
Generating Sets for the Lanarkshire Hydro-electric Power Scheme, English Electrical Company, Ltd. (October 14th, 1927)
L. M. and S. Railway—Three-cylinder Express Locomotive "Royal Scot" (October 7th 1927)
Shipping, Engineering and Machinery Exhibition at Olympia (Twenty-page Supplement, September 9th, 1927)

# Shipbuilding, Engineering and Machinery Exhibition, Olympia.

## Names of Exhibitors.

### A

AILSA Craig Motor Company, Ltd., 339
Alloy Welding Processes, Ltd., 278
Anglo-Swedish Electric Welding Company, Ltd., 277
Armstrong, Sir W. G., Whitworth and Co., Ltd., 375
Aster Engineering Company (1913), Ltd., *Suppt.*, 9.9.27, iv
Atlantic Engine Company (1920), Ltd., 377
Auto-Klean Strainers, Ltd., 276
Automatic and Electric Furnaces, Ltd., 278

### B

BABCOCK and Wilcox, Ltd., 306
B.E.N. Patents, Ltd., *Suppt.*, 9.9.27, viii
Bennis, Edward, and Co., Ltd., 306, 307
Bernard Holland and Co., 334
Blackstone and Co., Ltd., 333
British Oxygen Company, Ltd., 337
British Quadruplex, Ltd., *Suppt.*, 9.9.27, xvi
Brooke, J. B., Ltd., 338
Broom and Wade, Ltd., *Suppt.*, 9.9.27, xii
Burmeister and Wain, Ltd., 304

### C

CAMBRIDGE Instrument Company, Ltd., *Suppt.*, 9.9.27, xviii
Capac Company, Ltd., 333
Castner-Kellner Alkali Company, Ltd.: Crawshaw's Chemical Colander, 303
Clews Petersen Piston Ring and Engineering Company, Ltd., 378
Consolidated Pneumatic Tool Company, Ltd., *Suppt.*, 9.9.27, ix
Coventry Chain Company, Ltd., 376

### D

DAVEY, Paxman and Co., Ltd., *Suppt.*, 9.9.27, i

### E

ELECTRIC Control Company, Ltd., 304
Electric Submerged Log Company, *Suppt.*, 9.9.27, xi
Electro-Mechanical Brake Company, Ltd., 278, 279
Elto Motor Sales Company, 378
Empire Engineering Company, *Suppt.*, 9.9.27, xx

### F

FAIR, Walter D., and Co., 376
Fiat British Auxiliaries, Ltd., *Suppt.*, 9.9.27, vi
Filma Oil Burners, Ltd., *Suppt.*, 9.9.27, vii
Foster Instrument Company, *Suppt.*, 9.9.27, xviii
Fry's Metal Foundries, Ltd., 378

### G

GLENIFFER Motors, Ltd., 377
Godfrey Engineering Works, *Suppt.*, 9.9.27, xx
Green, E., and Co., 378
Greenwood and Batley, Ltd., 376
Grimston, Prichard and Plutte, Ltd., 275, 276

### H

HACKBRIDGE Electric Construction Company, Ltd., *Suppt.*, 9.9.27, xvii
Hadfields, Ltd., 331
Hall, J. and E., Ltd., 339
Hans Renold, Ltd., 337
Harfield and Co., Ltd., 340

### I

IGRANIC Electric Company, Ltd., *Suppt.*, 9.9.27, xix

### K

KEENOK Company, Ltd., 336
Kent, George, Ltd., *Suppt.*, 9.9.27, xvii
Kidde, Walter, and Co., 378
Klinger, Richard, Ltd., 276, 277, 375

### L

LACY-HULBERT and Co., Ltd., *Suppt.*, 9.9.27, ix
Laurence Scott and Co., Ltd., 376
Lea Recorder Company, Ltd., 275

### M

MARTIN Bros., Ltd., 307, 308
Martin's—*see* Klinger, Richard, Ltd.
Mason, H. L., 277
Metropolitan Fuel Company, Ltd., 331
Metropolitan-Vickers Electrical Company, Ltd., *Suppt.*, 9.9.27, x
Mumford, A. G., Ltd., *Suppt.*, 9.9.27, xii

### N

NEWTON, Chambers and Co., 305; (Correction), 340
Norris, Henty and Gardners, Ltd., *Suppt.*, 9.9.27, v, vi

### P

PARSONS, C. A., and Co., Ltd., 277
Parsons Marine Steam Turbine Company, Ltd., 333
Parsons Oil Engine Company, Ltd., *Suppt.*, 9.9.27, vi
Pels, Henry, *Suppt.*, 9.9.27, xv
Perman and Co., Ltd., 378
Petters (Ipswich), Ltd., *Suppt.*, 9.9.27, i, ii
Petters, Ltd., Yeovil, *Suppt.*, 9.9.27, iii
Pitman, Percy, 375
Pollock, James, Sons and Co., Ltd., 378
Premier Electric Welding Company, *Suppt.*, 9.9.27, xviii

### Q

QUASI-ARC Company, Ltd., 303

### R

RANSOMES, Sims and Jefferies, Ltd., *Suppt.*, 9.9.27, xix
Rapid Magnetting Machine Company, Ltd., 378
Reavell and Co., Ltd., *Suppt.*, 9.9.27, xiii
Robey and Co., Ltd., 304, 305
Rubber Growers' Association, 335
Ruston and Hornsby, Ltd., *Suppt.*, 9.9.27, iii, iv

### S

SCOTT and Hodgson, Ltd., 375
Sheepbridge Stokes Centrifugal Castings Company, Ltd., *Suppt.*, 9.9.27, xvi
Siemens Brothers, Ltd., *Suppt.*, 9.9.27, xvii
Sperry Gyroscope Company, Ltd., 334
Standard Cork Company, Ltd., 378
Stone, J. B., and Co., Ltd., 334
Stothert and Pitt, Ltd., 332
Stream Line Filter Company, Ltd., 338
Sunderland Forge and Engineering Company, Ltd., 377
Super-Centrifugal Engineers, Ltd., *Suppt.*, 9.9.27, xiv

### T

THORNYCROFT, John I., and Co., Ltd., 339
Trist, Ronald, and Co., Ltd., 305, 306
Turbine Furnace Company, Ltd., 338

### U

UNITED Water Softeners, Ltd., 335
Universal System of Machine Moulding and Machinery Company, Ltd., 333

### V

VANDERVELL, C. A., and Co., Ltd., 279
Victory Valves, Ltd., and Bolton's Superheater and Pipe Works, Ltd., 276

### W

WAILES Dove Bitumastic, Ltd., 378
Weir, G. and J., Ltd., 335
Welin-Maclachlan Davits, Ltd., 378
White, E. T., and Co. (1926), Ltd., 336
White, J. Samuel, and Co., Ltd., 377

## Exhibits.

### A

**Air Compressors:**
- Air Compressor, 100 Cubic Feet; Crude Oil-driven Compressing Set, Broom and Wade, Ltd., *Suppt.*, 9.9.27, xii
- Air Compressor, High-speed Quadruplex; Steam-driven Three-stage Compressor; Compressed Air 35-Cwt. Ship's Winch; Reavell and Co., Ltd., *Suppt.*, 9.9.27, xiii, xiv
- Air Compressors, Lacy-Hulbert and Co., Ltd., *Suppt.*, 9.9.27, ix
- Rotary Air Compressors, Vacuum Machinery, Bernard Holland and Co., 334, 335

AIR Ejector—*see* Steam
Alarm, Automatic Wireless, Siemens Brothers, Ltd., *Suppt.*, 9.9.27, xvii
Alloys, White Metal, and Die Castings, Fry's Metal Foundries, Ltd., 378

### B

BITUMASTIC Composition, Protective, Wailes Dove Bitumastic, Ltd., 378
Boiler Control, Feed-water Regulator, Thermo-feed, Ronald Trist and Co., Ltd., 305, 306
Boiler Feed Oil Eliminator, Stream Line Filter Company, Ltd., 338

### C

CASTINGS, Centrifugal, by "Spun-Sorbitic" Process, Piston Valve Liners, Newton, Chambers and Co., 305
Castings for Production of Piston Rings, Cylinder Linings, &c., "Die Cast" Iron Rods, Sheepbridge Stokes Centrifugal Castings Company, Ltd., *Suppt.*, 9.9.27, xvi
Chain Gear—*see* Gear
Colander—*see* Unclassed
Controllers—*see also* Electrical Matters
Cork for Insulating Refrigerating Apparatus, &c., The Standard Cork Company, Ltd., 378
Cox's Combustors—*see* Unclassed, Surface Combustion

### D

DAVITS, Gravity; Quadrant; Light Semi-rotary, Welin-Maclachlan Davits, Ltd., 378
Drill, Small—*see* Unclassed

### E

ECONOMISERS for Boilers, "Tri-tube," Smooth Tube, &c., E. Green and Co., 378

**Electrical Matters:**
- All-electric Steering Gear Equipment; Cargo Winch, 3-Ton, Electric; Motors, Generators, &c., Laurence Scott and Co., Ltd., 376
- Alternating-current Pressure Regulators for Boosting Feeders and Regulator for High-tension Circuits, Hackbridge Electric Construction Company, Ltd., *Suppt.*, 9.9.27, xvii
- Anglo-Swedish Generator, Anglo-Swedish Welding Set, Anglo-Swedish Electric Welding Company, Ltd., 277
- Battery Charging Set, 1½-kW, Ransomes, Sims and Jefferies, Ltd., *Suppt.*, 9.9.27, xix
- Controllers, Marine Type Control for Electrically Driven Pumps, Fans, Compressors, Winches, &c., Electric Control Company, Ltd., 304
- Controllers, Lifeboat Winch, Cargo Winch, Midget, Twin Drum, Electro-Mechanical Brake Company, Ltd., 278, 279
- Controllers for Lifts, Medway's Safety Lift Company, Ltd., J. and E. Hall, Ltd., 339
- Dean Valve Closing Gear, Electrically Operated Valve and Motor Gear, Igranic Electric Company, Ltd., *Suppt.*, 9.9.27, xix
- Furnace, Wild-Barfield Carburising; Furnace, Wild-Barfield Electric Magnetic Hardening; Wild-Barfield High-speed Steel-hardening Equipment, Automatic and Electric Furnaces, Ltd., 278
- Logs, Electric; Distant Recorders; Speed Indicator Repeaters; Electric Submerged Log Company, *Suppt.*, 9.9.27, xi
- Motor Generator, Regulators, Alternating and Direct-current, Petrol Generating Set, 10–12 H.P., Quasi-Arc Company, Ltd., 303
- Motor Generator Set, C. A. Parsons and Co., Ltd., 277
- Pedwyn Balance, Pneumatic and Electric Tools, Rivet Gun, Consolidated and Pneumatic Tool Company, Ltd., *Suppt.*, 9.9.27, ix
- Portable Electric Planers, Saws and Sanding Machine, B.E.N. Patents, Ltd., *Suppt.*, 9.9.27, viii
- Ships' Auxiliary Machinery—*see* Ships
- Three-phase Welding Set, Alloy Welding Processes, Ltd., 278
- Vertical Motor, Metropolitan-Vickers Electrical Company, *Suppt.*, 9.9.27, xi
- Welding Equipment, Binary Electric; Single-operator Welder; "Premier" Electrodes, Premier Electric Welding Company, *Suppt.*, 9.9.27, xviii
- Welding Set, Three-phase, Alloy Welding Processes, Ltd., 278

**Engines:**
- Auxiliary Lighting and Compressing Set, with 16 B.H.P. Parsons Engine and 8-kW Laurence Scott Generator; Marine Propulsion Set, 28 B.H.P. Paraffin or 32 B.H.P. Petrol, Parsons Oil Engine Company, Ltd., *Suppt.*, 9.9.27, vi, vii
- Cold-starting Oil Engine and Fuel Injection Gear; Model, 17 B.H.P. Self-starting; Petrol Engine Driven Air Compressing Unit, Blackstone and Co., Ltd., 333
- Cold-starting Oil Engines, Valves, Various Types, Robey and Co., Ltd., 304
- Engine, 40 B.H.P. Four-cylinder, "Pup" Petrol Motor, 4–6 B.H.P., Ailsa Craig Motor Company, Ltd., 339
- Engines, Marine, Twin-cylinder, 4 B.H.P.; Four-cylinder, 8 B.H.P., Elto Motor Sales Company, 378
- Internal Combustion Engines, High-duty; Self-contained Power Unit, 30 B.H.P.; Electric Generator Set, 8 kW, with four-cylinder Engine; "New Bronze" Phosphor Bronze Tubing, E. T. White and Co. (1926), Ltd., 336, 337
- Kromhout 100 H.P. Two-cylinder Marine Oil Engine, Perman and Co., Ltd., 378
- Marine Auxiliary Lighting Set, 165 kW; Three-cylinder Oil Engine Propulsion Set; Ruston and Hornsby, Ltd., *Suppt.*, 9.9.27, iii, iv
- Marine Motor, 6 B.H.P. Detachable, Walter D. Fair and Co., 376
- Marine Motor, Small; "Q" Series of Engines, Two, Four or Six-cylinder; 20-kW Six-cylinder Oil Engine Generator Set, Gleniffer Motors, Ltd., 377
- Marine Motors, Small and Large; Units for Lighthouses and for Driving Portable Compressors, Six-cylinder Marine Motor, 48–54 B.H.P., Atlantic Engine Company (1920), Ltd., 377
- Marine Oil Engine, 240 B.H.P., Auxiliary Generator Set, Fiat British Auxiliaries, Ltd., *Suppt.*, 9.9.27, vi
- Marine Oil Engine, Two-cylinder "Bolinder" Type, 90 B.H.P.; Smaller Engines for Pumping and Winch Driving; Star Contra Rudder, James Pollock, Sons and Co., Ltd., 378
- Models, Working, of Marine Oil Engines, Long Stroke, Trunk Piston and Double-acting, Burmeister and Wain, Ltd., 304
- Oil Engine Auxiliary Generating Set, 125-kW; Marine Propulsion Set, 55 B.H.P., Petters (Ipswich), Ltd., *Suppt.*, 9.9.27, i, ii, iii
- Oil Engine, 80 H.P., Generating Set, Davy, Paxman and Co., Ltd., *Suppt.*, 9.9.27, i
- Oil Engines: Six-cylinder Twin-screw Marine Set; 12, B.H.P. Generating and Compressing Set; Three-cylinder, 18 B.H.P. Marine Type Petrol-Paraffin Engine, Norris, Henty and Gardners, Ltd., *Suppt.*, 9.9.27, v, vi
- Petrol and Paraffin Engines: 10 H.P. Marine Set, 1-kW Automatic Lighting Set, Aster Engineering Company (1913), Ltd., *Suppt.*, 9.9.27, iv, v
- Six-cylinder Marine Motor, 40–100 B.H.P., 18ft. Empire Runabout Boat, with 10 H.P. Motor, J. W. Brooke, Ltd., 338
- Two-stroke Oil Engines: Marine Propulsion Set, 24–28 H.P.; Direct-coupled Oil-electric Generator Set, 3 kW; 1-kW Direct-coupled Lighting Set, Petters, Ltd., Yeovil, *Suppt.*, 9.9.27, iii

### F

FILTER—*see* Oil Renovator, &c.
Fire Detection and Extinction on Ships, Lux-Rich System, Walter Kidde and Co., 378
Furnaces, Electric—*see* Electrical Matters
Furnaces, Smoke-consuming and Surface Combustion—*see* Unclassed

### G

GAUGES—*see* Instruments

**Gear and Gear-hardening:**
- *See* Electrical Matters *and* Turbines
- Burn Gear, Reducing, Reversing and Speed-changing; Winch Equipment, Electric, Stothert and Pitt, Ltd., 332, 333
- Chain Coupling, Chain Transmission Gears, Chain Speed Reduction Unit, &c., Coventry Chain Company, Ltd., 376
- Chain Reduction Gear for Large and Small Motor Vessels, Hans Renold, Ltd., 337, 338
- Keenok Pinion and Gear, Change Speed Box, Keenok Company, Ltd., 336
- Lift Gear, J. and E. Hall, Ltd., 339
- Shorter Gear-hardening Machine, British Oxygen Company, Ltd., 337

GENERATOR—*see* Electrical Matters
Gyroscopic Complete Ship Equipment; Engine Revolution Indicator; Searchlights, Sperry Gyroscope Company, Ltd., 334

## I

**Instruments, Indicators, Gauges, &c.:**

*See* Electrical Matters

Electrical $CO_2$ and CO Indicators and Recorders, Draught and Pressure Gauges, Illuminated Dial $CO_2$ Indicators, Cambridge Instrument Company, Ltd., *Suppt.*, 9.9.27, xviii, xix

Gauge, High-pressure, Glass; Seatless Piston Valve, Richard Klinger, Ltd., 276, 277

Gauge, Martin's Feed-water Oil, 375

## K

KEENOK—*see* Gear

## L

LATHE, Vertical Turret, Martin Brothers, Ltd., 307, 308

Lifeboat Light—*see* Unclassed

Locomotive Superheater—*see* Superheater

Lubricators, Sight-feed Mechanical, Empire Engineering Company, *Suppt.*, 9.9.27, xx

## M

MAGNETS, Lifting; Magnetic Separators with Potentiometer Controller, Rapid Magnetting Machine Company, Ltd., 378

Monel Metal: Condenser Tubes for Ships, Superheater Valves and Spindles, Centrifugal Basket for Drying Sulphate of Ammonia, Flexible Metallic Tubing, Coupling, Quick-Grip, &c., G. and J. Weir, Ltd., 335

Motors—*see* Engines *and* Electrical Matters

## N

NIBBLING Machine—*see* Unclassed

## O

OIL Burner, Filma Oil Burners, Ltd., *Suppt.*, 9.9.27, vii, viii

Oil Fuel Burning Installation, J. Samuel White and Co., Ltd., 377

Oil Renovator; Boiler Feed Oil Eliminator; Stream-line Filter, Rotary Type, Stream Line Filter Company, Ltd., 338

Oil Separators, Sharples Centrifugal, Super-Centrifugal Engineers, Ltd., *Suppt.*, 9.9.27, xiv

Oxygen Blow-pipe Cutting Machine, Universal, Godfrey Engineering Works, *Suppt.*, 9.9.27, xx—*see* Gear, &c.

## P

PELTON Wheel—*see* Unclassed

Pneumatic and Electric Tools—*see* Electrical Matters

Pulley Blocks—*see* Unclassed

**Pumps:**

Centrifugal Pumps for Drainage, Self-regulating; High-level Pumping Installations; 3in. and 14in. Ruston Pumps, Ruston and Hornsby, Ltd., *Suppt.*, 9.9.27, iv

High-speed Conical Pump, Electrically Driven Duplex Bilge Pump with Silent Worm Drive, Vertical Electrically Driven Duplex Pump, A. G. Mumford, Ltd., *Suppt.*, 9.9.27, xii, xiii

Petrol-driven Self-contained Pumping Set, Aster Engineering Company (1913), Ltd., *Suppt.*, 9.9.27, iv

Pump, 4in. Unchokeable, Electric-driven, Blackstone and Co., Ltd., 334

Pumps for Oil, Petrol, Milk, Asphalt, &c., Stothert and Pitt, Ltd., 332

Valveless Rotary Pump, British Quadruplex, Ltd., *Suppt.*, 9.9.27, xvi

PUNCHING and Shearing Machines; Laminated Spring Press, 200-Ton; Steel-framed Punching Press, 200-Ton; Shearing Machine for Reinforcing Rods, Henry Pels, *Suppt.*, 9.9.27, xv, xvi

Purifiers—*see* Oil Separators

Pyrometers: Electrical Radiation, Thermo-couple; Temperature Indicator, Foster Instrument Company, *Suppt.*, 9.9.27, xviii

## R

RECORDERS, Electrical—*see* Electrical Matters

Refrigerating Machine, $CO_2$; Single-acting Compressor Unit, H.M. Naval Service; $CO_2$ Steam-driven Machine for Cooling Provision Rooms; Ammonia Machine, Direct-coupled; Ammonia Machine, with Two Single-acting Compressors, for Refrigeration on Land; "Hall Mark" Refrigerating Unit, with Automatic Electric Control; Lift Gear and Electric Controllers, J. and E. Hall, Ltd., 339

Rings, Double-convolution, Clews Petersen Piston Ring and Engineering Company, Ltd., 378

Rubber, Raw, Production and Manufacture Appliances for Testing Properties of Rubber, Rubber Growers' Association, 335

## S

SCREEN—*see* Unclassed

Shearing Machines—*see* Punching

**Ships, Small Craft:**

Models of Naval and Mercantile Ships, J. Samuel White and Co., Ltd., 377

Motor Cruiser, 30ft., with Twin-cylinder 9 B.H.P. Engine; Hydroplane Cruiser, 30ft., and 110 B.H.P., Six-cylinder Petrol Engine; Model of Single-screw Ship with Flettner Type Hand-operated Stream-line Rudders, Harfield and Co., Ltd., 340

Petrol and Paraffin Engines; Models of Large Ships, Thornycroft Oil Fuel Burning Gear, John I. Thornycroft and Co., Ltd., 339, 340

Shipbuilding Models and Photographs, Lathe and Small Tools, Sir W. G. Armstrong, Whitworth and Co., Ltd., 375

Ships' Auxiliary Machinery: Steam and Electric-driven Generator Sets; Armature of 210-kW Generator for Coupling to Diesel Oil Engine, Sunderland Forge and Engineering Company, Ltd., 377—*see* Winches, Unclassed

STEAM Air Ejectors, Condensate Pumps, Metropolitan-Vickers Electrical Company, Ltd., *Suppt.*, 9.9.27, x, xi

Steels: Corrosion-resisting Steel, "Era C.R."; Heat-resisting Steel, "Era H.R.," Hadfields, Ltd., 331; Vibrac Steel, Sir W. G. Armstrong, Whitworth and Co., Ltd., 375

Stokers, Mechanical, Self-cleaning, Natural Draught; Stokers, Mechanical, Chain Grate, Cellular Type; Stoker, Sprinkler; Bucket Elevator, Edward Bennis and Co., Ltd., 306, 307

Strainer—*see* Unclassed

Superheater, Locomotive, Cruse Gray High-Temperature, Victory Valves, Ltd., and Bolton's Superheater and Pipe Works, Ltd., 276

Surface Combustion—*see* Unclassed

## T

TECTOSCOPES—*see* Unclassed

Tools, Portable and other Electric—*see* Electrical Matters *and* Shipbuilding, &c.

Trucks, Electric, Ransomes, Sims and Jefferies, Ltd., *Suppt.*, 9.9.27, xix

**Turbines and Turbine Gearing:**

Turbine Gearing, Double-reduction, Metropolitan-Vickers Electrical Company, Ltd., *Suppt.*, 9.9.27, x

De Laval 20 B.H.P. Steam Turbine for 13-kW Ships' Lighting Set; Pumps; Transmission Gears, &c., Greenwood and Batley, Ltd., 376

Turbine Installation, High-pressure Geared; Low-pressure Turbine; Reduction Gear; Models of, &c., Parsons Marine Steam Turbine Company, Ltd., 333

Turbine, Steam, Generator Set; Capell Impulse Fan, Scott and Hodgson, Ltd., 375

## U

**Unclassed Exhibits:**

Auto-Klean Strainer and Auto-Klean Oil Strainer, Auto-Klean Strainers, Ltd., 276

Chemical Colander, Crawshaw's, Castner-Kellner Alkali Company, Ltd., 303

"Clear View Screen," George Kent, Ltd., *Suppt.*, 9.9.27, xvii

Drill, Double-spindle, and Wire-drawing Bench, Grimston, Prichard and Plutte, Ltd., 275, 276

Furnace, Smoke-consuming, for Lancashire Boilers, Turbine Furnace Company, Ltd., 338

Life-buoy Light, C. A. Vandervell and Co., Ltd., 279

"Nibbling" Machine, J. B. Stone and Co., Ltd., 334

Pelton Wheel with Deflector Governor, Water-driven Generator Set, Percy Pitman, 375

Pulley Blocks, Wrought Steel, Universal System of Machine Moulding and Machinery Company, Ltd., 333

Surface Combustion: Cox's "Ignite Combustors," Furnaces, Annealing and Heat Treatment; Melting Pot; Water Heating, Metropolitan Fuel Company, Ltd., 331, 332

Tectoscopes and Tectophones, Capac Company, Ltd., 333

Winch, 3-Ton Electric Cargo, Laurence Scott and Co., Ltd., 376

Winch, 3-Ton Electric Cargo, Worm-geared, Sunderland Forge and Engineering Company, Ltd., 377

Winches, Ship's Cargo, 30-Cwt. Electric; Winches, Worm Geared Electric for H.M. Naval Service, Harfield and Co., Ltd., 340

Worm-driven Winch, Metroplitan-Vickers Electrical Company, Ltd., *Suppt.*, 9.9.27, x

## V

VACUUM Machinery—*see* Air Compressors

Valve, Mason, Section of; Multi-seat Valve, H. L. Mason, 277

Valve, Seatless Piston, Richard Klinger, Ltd., 277

Valves, Wrought Steel, and Cast Steel, Models of Water-tube Boilers, Babcock and Wilcox, Ltd., 306

## W

WATER Recorder and Weir, Lea Recorder Company, Ltd., 275

Water Softening and Filtration Plants, Large and Small, United Water Softeners, Ltd., 335

Welding, Electric—*see* Electrical Matters

Winches—*see* Unclassed

Wire-drawing Bench—*see* Unclassed

# Miscellaneous Articles.

Asphalt Plant, Bitumen Boiler, &c., Johnston Brothers, 592

**ASSOCIATIONS, INSTITUTIONS & SOCIETIES**

**Association, British:**

Meeting in Leeds, 258, 273, 312

Prince of Wales' Message, 258

SECTION G, ENGINEERING:

Presidential Address, Invention as a Link in Scientific and Economic Progress, Professor Sir James Henderson, 258, 273

Design of Large Low-pressure Water Conduits, H. H. Burness, 375

Discussion on Coal, 312

Internal Heat of the Earth, G. L. Hodgson, 314

Internal Combustion Engines, Professor W. T. David, 373

Jet Wave Rectifier, Julius Hartmann, 372

Low Lift Axial Flow and Centrifugal Pumps, H. R. Lupton and J. H. W. Gill, 374

Lubrication, 274

Lubrication of Surfaces Under High Loads and Temperatures, Dr. T. E. Stanton, 274

Strength of Reinforced Concrete Beams in Shear, J. Gilchrist, 374

Super-tension Cables, Percy Dunsheath, 344

Switchgear for Alternating Currents, H. W. Clothier, 345

The Electric Discharge, Professor William Cramp, 274

Transmission of Power by Belts, H. W. Swift, 374

Transport on the Farm, Borlase Matthews, 374

SECTION J, PSYCHOLOGY:

Machine Speeds and Output, F. Wyatt, 372

SECTION L, EDUCATION:

Education and Industry, Papers by T. Wickham Murray, E. Walls, J. H. Everett, Dr. H. Schofield, A. P. M. Fleming, 373

**Association, British Waterworks:**

Origin and Distribution of Underground Waters, Dr. J. W. Gregory, 104

**Association, Diesel Engine Users:**

Centrifugal Castings for Diesel Engines, J. E. Hurst, 635

Fuel Experiments in a Mechanical Injection Oil Engine, E. L. Bass, 434

**ASSOCIATIONS, INSTITUTIONS & SOCIETIES** (*continued*):

**Institute of British Foundrymen:**

Sheffield Convention, 72, 93

Cylinders and Piston Rings, Monsieur Audo, 93

Importance of Air Control in Efficient Cupola Practice, P. H. Wilson, 73

International Committee of Foundry Technical Associations, 94

Manganese and Whiteheart Malleable, E. R. Taylor, 94

Manufacture of a Large Steel Casting, F. A. Melmoth and T. W. Brown, 94

Nickel and Chromium in Cast Iron, Professor Piwowarsky, 94

Presidential Address, J. T. Goodwin, 72

Properties of Coke Affecting the Cupola Melting of Steel, J. T. MacKenzie, 73

Strength of Cast Iron, J. E. Fletcher, 94

Stresses in Non-ferrous Castings, Professor C. H. Desch, 74

**Institute of Fuel:**

Autumn Meeting, 547, 594, 620

Programme, 547

British Coking Industry and Some of Its Products, Robert Ray, 622

Chemical Study of Processes Involving the Carbonisation of Coal by Internal Heating, Professor M. W. Travers, 622

Measurement of Steam Flow, H. C. Armstrong and T. Nordenson, 622

National Electricity Supply, Sir Philip Dawson, 620

Oil Fuel, (1) Dr. A. E. Dunstan and Dr. H. G. Shatwell, (2) J. Ivon Graham and D. G. Skinner, 622

Operating Experiences with 1300 lb. Steam Pressure, John Anderson, 605; (Letter), 653

Preheated Air for Boiler Furnaces, P. H. N. Ulander, 622

Presidential Address, Sir Alfred Mond, 594

Steam Production at 1300 lb. Pressure, J. Anderson, 605, 621

Vertical Intermittent Chambers Ovens, N. J. Bowater, 622

**Institute, Iron and Steel:**

Autumn Meeting, 53, 347, 361, 388

Date and Programme, 53, 263

**ASSOCIATIONS, INSTITUTIONS & SOCIETIES** (*continued*):

**Institute, Iron and Steel** (*continued*):
Behaviour of Mild Steel Under Prolonged Stress at 300 deg. Cent., Dr. W. Rosenhain and Dr. D. Hanson, 348
Carbon-silicon Alloys, Dr. Hanson, 348
Carnegie Gold Medal Awards, 361
Economic and Social Development of the American Iron and Steel Industry, Theodore W. Robinson, 347, 447, 457
Effect of Varying Ash in Coke, C. S. Gill, 362
High-frequency Induction Melting, D. F. Campbell, 363
Nickel-chromium Steels, Magnetic and Other Changes, &c., H. A. Dickie, 388
Nickel-silicon Iron Alloys, A. B. Everest, 363
Silica Gel as a Blast Drying Medium, E. H. Lewis, 361
Solution and Precipitation of Cementite, J. H. Whiteley, 388
Theory of the Blast-furnace Process, Dr. Fritz Wüst, 362
Work-hardening of Steel by Abrasion, E. G. Herbert, 388

**Institute of Marine Engineers**:
Presidential Address, Royal Navy and the Mercantile Marine, Engineer-Captain Wm. Onyon, 316

**Institute of Metals**:
Autumn Meeting, 148, 288, 301, 329
Programme, 148
Age Hardening Tests with Elektron Alloys, K. L. Meissner, 331
Aluminium and Corrosion, Two Papers on, H. Sutton and A. J. Sidery, and J. W. W. Willstrop, 330
Copper-magnesium Alloys, W. T. Cook and W. R. D. Jones, 302
Copper, Zinc and Cadmium, Alloys of, C. H. M. Jenkins, 330
Effect of Work and Annealing on the Lead-tin Eutectic, F. Hargreaves, 302
Equilibrium Diagram of Copper-tin Alloys, &c., A. R. Raper, 302
Etching Specimens by Cathodic Disintegration, Cyril S. Smith, 331
Grain Growth in Metal Powder, Messrs. Smithells and Others, 330
Magnesium-cadmium, W. Hume-Rothery and S. W. Rowell, 331
Minute Shrinkage Cavities in Some Cast Alloys of Heterogeneous Structure, William A. Cowan, 329
Nomination of Officers and Councillors, 301
Non-ferrous Metals in Modern Transport, Lecture by Dr. Leslie Aitchison, 288
Solid Magnesium and Liquid Tin Reaction, W. Hume-Rothery, 302
Undercooling of Some Aluminium Alloys, Dr. Marie Gayler, 301

**Institution of Chemical Engineers**:
Series of Meetings, Programme, 608
Three-day Conference, 678
Design of Refrigerating Plants, G. W. Daniels, 679
Refrigeration, Practical Aspect of, &c., Leuig Chew, 679
Refrigerators, Electric Automatic, Raymond J. Mitchell, 679
Industrial Lighting, W. J. Jones, 679
Silica and Fire-clay Products, A. T. Green, 679
Submerged Flame Combustion, Norman Swindin, 678
Weighmeter, R. G. Parker and Others, 679

**Institution of Civil Engineers**:
Development of Inland Transport, Presidential Address, E. F. C. Trench, 501
October Examination, 1927, Pass List (Interim), 625
Power Gas from Sewage Sludge, F. C. Vokes and C. B. Townend, 693
Transfer of Heat in Cylinder Walls, Lecture by Professor Dr.-Ing. Adolph Nägel, 420, 459, 480, 506

**Institution of Electrical Engineers**:
Electric Ploughing, Borlase Matthews, 665
Higher Steam Pressures and their Application to the Steam Turbine, A. H. Law and J. P. Chittenden, 514
Presidential Address, Archibald Page, 486

**Institution of Engineers and Shipbuilders in Scotland**:
British Steel Industry, R. D. Moore, 391
Factors of Safety and Quality of Material, W. H. Riddlesworth, 748
Recent Developments of the Marine Exhaust Steam Turbine, Dr. Gustav Bauer, 692

**Institution, Junior, of Engineers**:
Perkins, Loftus P., and High-pressure Steam, 633
The Nile and the Use of Its Waters, Sir Murdoch Macdonald, 598
Vibro Concrete Piling, M. McCarthy, 490

**Institution of Mechanical Engineers**:
Annual Dinner, 707
Cutting Tools Research Committee, Report, E. G. Herbert, 650
Hawksley, Thomas, Lecture, X-rays and the Crystalline Structure of Materials, Sir William H. Bragg, 535
Modern Portland Cement Plant, Hal Gutteridge, 604, 610
Presidential Address, Sir Henry Fowler, Excerpts from, 474
Some Experimental Results from a Three-cylinder Compound Engine, Lawford H. Fry, 706, 714, 718, 731
Summer Meeting at Birmingham, 16, 44
Effects of the Automobile Industry on the Midlands, H. Kerr Thomas, 16, 21; (Correction), 46
Visits, 44

NORTH-WESTERN BRANCH:
Annual Dinner, 664
Joint Meeting with the Liverpool Engineering Society, Modern Portland Cement Plant, Hal Gutteridge, 693

**ASSOCIATIONS, INSTITUTIONS & SOCIETIES** (*continued*):

**Institution of Mechanical Engineers** (*continued*):
SOUTH WALES BRANCH:
Visit to Cardiff Docks, 77

YORKSHIRE BRANCH:
Chairman's Address, J. H. Barker, 720

**Institution of Naval Architects**:
Summer Meeting in Cambridge, 63, 88, 117
Degrees Conferred by the Vice-Chancellor, 91, 176
Average Winter Sea Speeds, J. L. Kent, 89
Deformations and Stress Distribution in Rigid Airships, Professor W. Hovgaard, 90
Propulsive Efficiency of Rowing, F. H. Alexander, 63
Pulverised Fuel for Marine Purposes, Engineer-Captain J. C. Brand, 65, 75
Screw Propeller Efficiency, G. S. Baker, 88
Ships from Pepys' Manuscripts, G. S. Laird Clowes, 63
Visits at Cambridge, Bedford and Ipswich, 117, 118
Air Compressing Machinery, 117, 118
Marine Auxiliary and Propelling Machinery, 117, 118

**Institution, North-East Coast, of Engineers and Shipbuilders**:
Presidential Address, Maurice C. Gibb, 509

**Institution of Petroleum Technologists**:
Corrosion by Oil, Horace J. Young, 436

**Institution of Public Lighting Engineers**:
Annual Conference, 211
Programme, 211

**Society of Chemical Industry**:
Automatic Liquid Analysis, Dr. H. S. Hatfield, 652

**Society of Engineers**:
Internal Combustion Boiler, Oscar Brunler, 18

**Society, Newcomen**:
Summer Meeting, 8
Making and Rolling of Iron, John W. Hall, 689

**Societies, Physical and Optical**:
Exhibition, 710

AUDO, Monsieur, Cylinders and Piston Rings, 93

**Some Features of the Show**:

430
Brakes, Additions Foretold, 431
Westinghouse Brake and Saxby Signal Company, Ltd., Vacuum Servo Brake, 453, 454
Coach-building Improvements, 431
Fabric Body, 431
Free Wheel Mechanism, 430
Gear-boxes, Quieter, 430
Ignition, Coil and Battery, 430
Ignition System, Combined Magneto Coil, with Automatic Ignition Timing Device, for Four, Six, or Eight-cylinder Cars, British Thomson-Houston Company, 451
Lamp Improvements, 431
Side-by-side Valve Engine, 430
Six, Eight, or Twelve-cylinder Engines, 451
Steering Improvements, 431
Superchargers and Noise, 430
Totally Enclosed Car, 431

MOTOR Vehicle with Power Unit Withdrawn, Lacre Motor Car Company, Ltd., 576

**MOTOR VEHICLES, COMMERCIAL, AT OLYMPIA**:

566, 596
Armstrong-Siddeley Motors, Ltd., Four-wheel Tractor, 35–40 H.P. Four-cylinder Engine, 598
Associated Daimler Company, Thirty-four-seater, Single-deck Saloon Omnibus with 40–70 H.P. Six-cylinder Daimler Engine; Sixty-eight-seater, Six Wheels, Double-deck Omnibus with Sleeve Valve Six-cylinder Engine; Chassis, Commercial, 40–70 H.P., Six-cylinder Daimler Engine, 598
Automobiles M. Berliet, Chassis Fitted with Gas Producer, 596
Bean Cars, Ltd., Six-cylinder, Six-wheel Chassis, 40 H.P. Engine, 568

**MOTOR VEHICLES, COMMERCIAL, AT OLYMPIA** (*continued*):

Bristol Omnibuses, Thirty-two-seater "Super-bus," Four-cylinder, 32·4 H.P. Engine; Twenty-six-seater All-weather Coach; Twenty-seater Omnibus with Four-cylinder, 25·6 H.P., 597, 598
British Mercedes, 5-Ton, Six-wheel Chassis, 70 H.P. Crude Oil Engine, 597
Citroën-Kegresse Car with New Type Endless Band Attachment, 598
Commer Company, Thirty-seater Omnibus; Low-loading Refuse Collecting Vehicle, 598
Crossley Motors, Ltd., Rigid Six-wheeler Vehicle with 25·6 H.P. Engine, 598
Dennis Bros., Ltd., 70 H.P. Low Load Line Parlour Coach, 596
F.W.D. Lorry Company, Six-wheel Drive Vehicle, Four-cylinder, 42 H.P. Engine, 566, 567
Garrett, Richard, and Sons, Ltd., Six-wheel Electric Trolley Omnibus, 598
Karrier Motors, Ltd., "Compound" Gas Producer Fitted to Six-wheeled Lorry; Six-wheel Chassis with Six-cylinder Sleeve Valve Engine, New Type, 596, 597
Kirkstall Forge, Ltd., Four-wheel Drive, New Type, 597
Mercedes-Benz 5-Ton Chassis with Six-cylinder Diesel Engine, 598
Panhard and Levassor Gas Producer Driven Vehicle, 596
Ransomes, Sims and Jefferies, Ltd., Six-wheel Electric Trolley Omnibus Chassis, 568
Saurer, Swiss-built Six-cylinder Chassis, 566
Scammell Lorries, Ltd., 4-6-Ton Rigid Six-wheel Chassis; Eight-wheeled Machine with New Type Carrier, 598
Thornycroft, Passenger Chassis, New Type, for Twenty-seater Bodies, 60 B.H.P. Six-cylinder Engine; Three Subsidy Type Vehicles, 598
Tilling-Stevens, 36–95 H.P. Six-wheel Petrol-electric Chassis, 566, 567
Omnibus, Light, Four-cylinder Side Valve Engine, 566, 567
Walker Brothers, Omnibus Chassis, Low-loading, Six-cylinder 33·5 H.P. Engine, 597

**Steam Vehicles**:

Atkinson Walker Wagons, Ltd., 10-Ton Six-wheeled Wagon, Twin-cylinder Uniflow Engine, 567
Clayton Wagons, Ltd., Overtype Wagons with Locomotive Type Boiler; Undertype Wagons with Vertical Water-tube Boiler, 567
Fodens, Ltd., Rigid Six-wheel Lorry with 45 B.H.P. Engine, Compound Cylinders, 567
Sentinel Waggon Works, Ltd., 15-Ton Six-wheel Wagon, 90 B.H.P. Engine, Two Double-acting Cylinders, 567, 568
Yorkshire Patent Steam Wagon Company, 6-Ton Wagon, Locomotive Boiler, Vertical Two-cylinder Compound Balanced Engine, 567

Producer Gas Plant, By-product, at Copper Mine in Northern Rhodesia, 230, 234, 235
Propeller—*see* Screw

**PUBLIC WORKS AND TRANSPORT CONGRESS**:

558, 608, 636—*see also* Exhibitions

British Waterworks Association:

Papers:

Colloids, T. P. Francis, 608
Law Relating to Rivers Pollution Prevention, A. Bebbington, 608
River Pollution, F. H. Heald, 608
(*a*) Water Divining, Professor J. W. Gregory; (*b*) Economics of Water Supply, F. J. Alban; (*c*) Rural Water Supplies, D. F. Worger, 636

County Land Agents' Association:

Advancement of Agriculture, F. H. Osmond-Smith, 558

Institute of Cleansing Superintendents:

Papers:

Cleansing, W. Weaver; Why the Yield of House Refuse is Unnecessarily High and How it May be Reduced, Alex. L. Thomson, 637

Institution of Gas Engineers:

Gas Industry's Contribution to Smoke Abatement, F. W. Goodenough, 560

Institution of Municipal and County Engineers:

Design and Construction of Reinforced Conduits, Sewers and Aqueducts, Professor E. R. Matthews, 608
Design of Deep Culverts, C. S. Chettoe, 608
Organisation of Highways Work, Price Davies, 608
Rural Simplicity, R. O. Goodby, 608
(*a*) Implications of Local Ownership and Transport Undertakings, H. Marsh, 636
(*b*) Costing for Public Works and Buildings, B. Price Davies, 636
Coast Erosion and Defence, E. J. McKaig; Sea Defence: Erosion and Protection on a Sandy Coast, S. W. Mobbs, 636

Managers of Sewage Disposal Works:

Papers:

(*a*) Small Sewage Works, J. H. Garner; (*b*) First Principles in Sewage Disposal, F. C. Temple, 636
Solution of Oxygen in Sewage, A. S. Parsons and H. Wilson, 609
Some Methods of Analysis of Sewage and Water, F. R. O'Shaugnessy and Others, 609

**PUBLIC WORKS AND TRANSPORT CONGRESS** (*continued*):

Municipal Electrical Association and Institution of Gas Engineers:

Street Lighting as an Illumination Problem, Dr. J. W. T. Walsh, 558
Street Lighting of London, W. J. Jones, 558, 559

Municipal Tramways and Transport Association:

Light Railways in the British Isles, Is there any Future for? R. D. Gauld, 559

National "Safety First" Association:

A Review of Road Accidents: Frequency, Cause, Prevention, Lieut.-Colonel J. A. A. Pickard, 637

PULVERISATION—*see* Coal
Pulverised Fuel on a Cargo Steamer, 679
Pulverised Fuel for Marine Purposes, Engineer-Captain J. C. Brand, 65, 75

**PUMPS**:

Bilge Pumping Arrangements, Emergency, Pipe Arrangement, Sterry B. Freeman, 637
Centrifugal Pumps, H. R. Lupton and J. H. W. Gill, 374
Circulating Water Intake Building; Pump Motor Room and Strainers, at Ferrybridge, 488, 503, 532, 540
Electrically Driven Centrifugal Pumps, Worthington Pump and Machinery Corporation, 290
Electrically Driven Vertical Marine Pumps, W. H. Allen, Sons and Co., Ltd., 132
Garage Pumps for Inflating Pneumatic Tires, Reavell and Co., Ltd., 628
Novel Roller Pump, Malcolm and Feuerheerd, 610
Oil-driven Pumping Plant at Walton, Worthington-Simpson, Ltd., 426, 435
Oil-driven Pumping Set, Crossley Brothers, 655
Pumping Station and Pumps for Portsmouth, 508, 512
Pumps, Non-chokeable, Wallwin Company, 592
Rotary Pumps for Fire Extinguishing, &c., New Features, Martin's, 655
Vertical Spindle Pump for Adelaide Power Station, Rees Roturbo Manufacturing Company, Ltd., 578

ABRASIVES for Use in Wood-working and other Industries, 95
Abrasives, Report by Canadian Department of Mines, 369
Aerial Ropeway—*see* Coal

**AERONAUTICS:**
Aeronautical Prizes, 131
Aeroplane Construction at High Rate of Speed at Factory of Canadian Vickers, Ltd., 539
Aeroplane Factory Proposed at Tsingtao, China, 688

**AERONAUTICS** (*continued*):
Aeroplane Service Between China and Japan, Proposed, 629
Air Liners for Passengers and Mails in America, 95
Australian Aerial Services, Ltd., Happy Record, 341
Berlin's Aerodrome, Extension of Administrative Buildings, 657
Canadian Government Air Service Increase, 425
Commercial Aerial Service Projected Between Shanghai, Nanking, &c., 739
Hundred-passenger Aerial Pullman, Ford Motor Company, 229

**AERONAUTICS** (*continued*):
Mooring Tower for Transatlantic Air Service Between Britain and Canada, 95
Wireless, Pilotless Successful Series of Flights by Biplane, 569

"AGE of Speed," Cinematograph Film, Offer by Alfred Herbert, Ltd., 270
Agricultural Experiments with Use of Electricity for Growing Vegetables near Stockholm, 369
Agricultural Profit Absolutely Demands Improved Transport, R. Borlase Matthews, 255
Ajax-Northrup Furnace at Museum, 710
Alcohol, Butyl, from Corn, and the By-products to Yield Methyl Alcohol, 483
Alcohol, Industrial, Manufacture in Paris, 229
Allen-Liversidge, Ltd., Staff Dinner, 644
Alloys, "Permalloy" and Other Varieties, 149
Aluminium Electrolytic Rectifiers and Corrosion Question, 13
Aluminium, Proposed Plant for Manufacture of, in Tasmania, 711
American Industry's Mechanical Power Increase, 149
Ammunition, New Method to Prevent Rust, Corrosion and Pitting, 149
Ammunition Problem for the United States Army, 569
Anchoring Buildings to Resist Wind Pressure in U.S.A., 685

Annealing and Use of Wrought Iron Chains, Government Booklet, 397
Antofagasta, Chile, Progress in Construction of New Protected Port at, 341, 369
Argentina, Boring Series of Deep Wells, 511
Argentine to Proceed with Construction of Costanera Canal, 341
Artificial Silk Manufacture in Tasmania, Proposed Formation of Company, 69
Asbestos and Allied Products Output in Canada, 281
Asbestos-Cement Building Materials, Projected Factory for Production, 281
Asbestos from Cyprus Mines, Expected Output, 229
Asbestos Deposit in the Transvaal, 255

**ASSOCIATIONS, INSTITUTIONS & SOCIETIES**

ASSOCIATION OF ENGINEERS, MANCHESTER:
Visit to Linotype Works, Altrincham, 105
INSTITUTE OF CHEMISTRY:
Jubilee Banquet, 723
INSTITUTE, IRON AND STEEL:
Awards of "Williams Prize," 583
INSTITUTE OF MARINE ENGINEERS:
High-temperature Heat Insulation, F. C. Timpson, 511
INSTITUTE OF METALS:
New Offices, Additional Library and Reading Room, 425
INSTITUTE, ROYAL, OF BRITISH ARCHITECTS:
Offer of Maintenance Scholarship, 135
Awards of Maintenance Scholarships, and also Renewals, 495
INSTITUTION OF AUTOMOBILE ENGINEERS:
Coming-of-Age Dinner, 641
INSTITUTION OF CHEMICAL ENGINEERS:
Annual Reception and Conversazione, 510
INSTITUTION OF CIVIL ENGINEERS:
Awards of Various Prizes, 405
Second Public Examination in Chemical Engineering, Comment on Work Done, 641
Yarrow and William Lindley Scholarships, Applications Invited, 181
INSTITUTION OF ELECTRICAL ENGINEERS:
A.M.I.E.E. Examination, 189
Associate Membership Examination Dates, 672
Ballot for the Council for 1927–28, Result, 94
Grant of £1000 to Funds of British Engineering Standards Association, 229, 285, 569
Honorary Member Election, 616
Students' Premiums Award, 84
Students' Sections, Annual Summer Meeting, Programme, 53
INSTITUTION, JUNIOR, OF ENGINEERS:
Annual General Meeting and Elections, 586
Engineering Salesmanship, Robert Lowe, 551
Hardening and Quenching Throughout the Ages, Lecture, P. J. Haler, 739
Lubrication, Professor Edwin Edser, 421
Management Graphics, F. G. Rose, 697
Meetings for Engineering Questions or Discussions Raised by Members, 666
President, New, Choice and Induction of, 323
INSTITUTION OF MECHANICAL ENGINEERS:
Prizes Awarded for Papers, 495
Water Arbitration Prize, Subject of Paper, 424
North-Western Branch, Visit of Members to Metropolitan-Vickers Electrical Works at Trafford Park, 25
INSTITUTION OF NAVAL ARCHITECTS:
Date for Next Annual Meetings, 526
Scholarship Awards, 211, 492
Scholarships to be Offered in 1928, 583
INSTITUTION OF RAILWAY SIGNAL ENGINEERS:
Associates Admission, Widening Change, 483
Summer Meeting in France, 41
INSTITUTION, ROYAL, OF GREAT BRITAIN:
General Meetings, Elections, 551, 666
Juvenile Christmas Lectures, 470
Lectures during November and December, 421
Programme of Friday Evening Discourses before Easter, 726
INSTITUTION OF WATER ENGINEERS:
Meeting in Glasgow, Subterranean Water: Its Three-fold Origin, Professor J. W. Gregory, 309
SOCIETY OF ENGINEERS:
Lead Electric Accumulator in Modern Practice, R. C. Hall, 369
SOCIETY, ROYAL AERONAUTICAL:
Honorary Fellow, Election, 616
SOCIETIES, PHYSICAL AND OPTICAL:
Date of Exhibition in 1928, 490

ATMOSPHERIC Conditions in Deep Mines, 685
Automatic Telephone in Doncaster, 281
Automatic Telephone Exchanges in London, Early Openings Expected, 13, 255

## B

BARIUM-CARBONATE Method for Treatment of Boiler Feed Water, 539
Beet Sugar Factory Projected at Penkridge, Staffs., 281
Beet Sugar Machinery, Controlling, 628
Belgian Manufacturers' Corporation for Sale of Goods in India, Burma, and Ceylon, 309
Belgian Scheme for Water Control and Railway Communication, 13
Beryl, Precious Variety, Important Discovery made in the Transvaal, 629
Bicycle Imports into Egypt, Considerable Increase, 539
Blacklead, 131
Blasting, Well-drill, an Improbable Cause of Damage to Buildings, 340
Blind Workers in Engineering Factories at Home and Abroad, 341
Boiler Accident, Unusual, and its Cause, 41
Boiler Collapse and Useless Water Gauge, 599
Boiler Explosions and Necessary Precautions, 149
Boiler Explosions and Stop Valves, 41
Bombay Engineering Congress, Thirteenth Annual Session, 539
Boulogne's Increasing Passenger Traffic, Projected Enlarged Accommodation for Shipping, 599
Brass Trust, Expected Formation of, 149

**BRIDGES:**

Brazil to Invite Tenders for Steel Bridge over the Rio Doce, 41
Bridge Across the River Hull, 425, 455
Bridge, Railway, Over the Yarra, Melbourne, Unused for Forty Years, Proposed Use for Vehicular Traffic, 69
Buffalo River, High-level Bridge Projected at East London, 36
Chicopee Falls, Massachusetts, Proposed Bridge to be Built by Arc Welding Process, 539
Clarence River, Bridge Over, at Grafton, N.S. Wales, 281
Concrete Bridge, Special Span and Height, under Construction Over Creek in California, 599
Denmark, Little Belt Bridge Projected, 177
Ferro-concrete International Bridge, Tenders for Construction, 511
Ferro-concrete Bridge to Replace Iron Suspension Bridge at Marlow, 685
Forest City International Bridge, Tenders for Construction, 511
Forth and Tay New Road Bridges, Long-delayed Reports, 739
George's River, Bridge Over, near Sydney, Foundation Difficulties Overcome, 255
High Bridge, Over Harlam River, New York, Improvement of, 711
Iron Truss Bridge Collapse by Wood Flooring Catching Fire, 149
Irrawaddy Proposed Bridge, Construction to Begin, Burma Government to Share Cost, 41, 159
Mississippi River Bridge, Serious Erection Accident, 455
Murray River, Bethanga Bridge Construction being Pressed Forward, 397
Murray River, Five New Bridges Over, 177
Nerbudda Bridge of Great Indian Peninsula Railway, 711
Palmiet River, Proposed Bridge Over at, Elgin, South Africa, 69
Port Augusta, South Australia, Important Bridge, 281
Sautet Gorge of Drac River, New Bridge Across, 711
Scherzer Bridge at Tientsin, 569
Southern Railway High-level Bridge at Maidstone, Reconstruction, 685
Suspension Bridge, New Brunswick, to be Dismantled, 629
Suspension Bridge Between New York City and Fort Lee, N.J., Begun, 369
Sydney Harbour Bridge Main Arch Construction, 41
Wearmouth Bridge at Sunderland, Work Begun, 483
Yarra, Bridge Over, Projected by New Victoria Labour Ministry, 41

BRIQUETTING Plant at Estevan, Saskatchewan, 318
British Beet Grower and Empire Sugar Producer, 293
British Columbia Electric Railway, Boring Power Tunnel, 511
British Columbia's Large Order for Timber for London, 518
British Electrical and Allied Manufacturers' Association, Annual Dinner, 608
British Engineering Standards Association, Grant of £1000 Received from the Institution of Electrical Engineers, 229, 285, 569
British Paint, Varnish, &c., Manufacturers' Research Association, 369
Burma, Reported Large Area Suitable for Rubber Planting, 425
Burner, New, for Marine or Industrial Use, 123

## C

CABLE Tramway Replaced by Omnibus Service, 397
Cable Tramway Ropes, British Ropes Preferred in Melbourne, 177
Cables—*see* Telegraphy
Callao, Peru, Important Dock Extensions, 309
Canada's Mineral Output, 255, 539
Canadian Government Extension of Scientific and Industrial Research, 13
Canadian Grindstone Quarrying, Experiences in Early Days, 341
Canal Made for Moving Large Oil Storage Tanks, 569
Canal, Regents, and Dock Company, Proposed Wholesale Acquirement of Other Canals, 629
Carbide Furnace at Shawinigan Falls, Quebec, 177
Cargo-handling at Tees Wharves, A Record, 569
Casein in Finland Industry, Large Demand, 685
Catalogues of Agricultural, Engineering and Other Machinery and Goods Wanted for East Africa, 455
Causes and Effects of Mining Subsidence, Sir Richard Redmayne, 539
Cellulose Lacquer Industries, New Resin for, 177
Cement Factory, Large, Proposed in Derbyshire, 281
Cement Factory to be Put Up at Port Elizabeth, 255
Central Heating for Paris, 629
Centrifugal Pump, Claims Made for it, 41
Centrifugal Pump, Disadvantage of Having a Foot Valve, 629
Chains—*see* Annealing
Charcoal's Mysterious Effect on Gold and Silver, 95
Chemical Reactions, French Apparatus for Studying, 629
China Clay, Cornish Businesses Bought by American Firm, 281
Chlorination and Toxicity, Research, 629
Chrome and Asbestos Output of Southern Rhodesia, 425
Chrome Ore in the Transvaal, Profitable Possibilities if Transport Secured, 148
Chromite Deposits Discovery in the Southern Ural, 13
Chromium Plating, Recent Developments in Germany, 397
Chromium Plating Revived in Sheffield, 281
Cleaning Castings by New Hydraulic Method, 455
$CO_2$ Gas, Natural, Description of Liquefaction, J. Forman, 739

**COAL, COKE, AND COLLIERIES:**

Aerial Ropeway for Coal Conveyance, 149
Betteshanger Colliery, Deal, Sinkings, 318
Bolsover Colliery Company's New Shaft, 281
Boring Operations at Crosby, Cumberland, Disappointing Results, 455
British Columbia Collieries' Output, 629
Brown Coal Deposits at Altona, Victoria, Renewed Exploitation of, 255
Brown Coal Distillation and Engine Fuel, 483
Brown Coal, South Australian, Equipment Needed for Burning, 229
Cleckheaton Colliery, Discovery of Seam, 255
Coal Area, Extensive, Discovered in China, 685
Coal Bunkering and Loading at Hartlepool, Improvement of, 539
Coal Discovered under Business District of Town in Nova Scotia, 599
Coal Discovery at Hook, Pembrokeshire, 739
Coal Distillation Plant for Inverness, Nova Scotia, 539
Coal-handling Plant for Toronto Harbour, 177
Coal Tar Manufacture for Asphalt Roads in Manchuria, 483
Coalite, by Low-temperature Carbonisation, Ltd., High Price for First Consignment, 177
Coal Seam Discovery at Cultus Lake, British Columbia, 281
Coke and Gas Plant and By-product Plant for Recovery of Tar and Ammonium Sulphate, 13
Coke Importation into New South Wales, Imposition of Duty Proposed, 341
Colliery, New, to be Opened in New South Wales, 397
Craven Colliery to be Closed Down, 424
Disaster in Pit by Collapse of Pipes, Report and Recommendations, 391
Dutch East Indies, New and Promising Coalfield Discovery, 718
Electric Belt Conveyor for Shipping Coal from the Mine, 309
Excavator, Very Large Mechanical, Installed in German Coal Mine, 369
French Coal Production in September, 539
Fuel Research Station's Report on Lancashire Coal, 177
Heapstead to be Erected at Boldon Colliery, Durham, 539
High Main Seam to be Worked Again, 739
Lignite and Bituminous Coal Treatment for By-products, 397
Low Main Seam Found at New Pit, Seaham Harbour, 511
Low Moor, Yorkshire, Rediscovery of Coal Seam, 255
Low-temperature Carbonisation of Coal Proposed for Canada, 177
Mines Closing Down in Spain, Government Measures Called for, 255
Mining Region in Siberia, Discovery of Coal Seams Across Residential Site, 711
National Conference of Coal Producers and Distributors, Hoped-for Price Reduction, 569
New Zealand Coal, Survey to be Undertaken by Government, 538
Northumbrian Coal Mine Improved and Reopened, 309
Nova Scotia's Increased Coal Production, 309
Rhodesia, Large Coalfield Discovery Reported, 202
Shipley Colliery Company's New Seam, 511
Shipment of Coal in Commissioners' Docks, at Calcutta, 341
Somerset Coalfield "Guss" Inquiry, 229
Steel and Wood as Material for Pit Props, 229
Thoresby Colliery, All-electric, Engineers' Visit of Inspection, 425
Ultra-violet Ray Treatment for Pit Boys and Young Miners, 229
Upper Silesia, Coal from, for Algerian Railways, Trial Order, 13
Waukie Company, South Africa, New Colliery Equipment, 455

COLD Storage Buildings on East Pier, Cape Town, Put into Service, 255
Cold Storage Erection at Durban, 739
Colombo Harbour Improvement Progress, 628
Colombo, Scheme for Reclamation of Swamps, 341, 391
Concentrating Copper Ore by Flotation, 255
Concrete Building Record in British Colombia, 455
Concrete Chimney Stack, Tallest in North America, 397
Concrete Road in Colorada, Ore from the Dump of a Gold Mine Used in Construction, 629
Concrete Roadway, 137 Miles in Length, 177
Concrete Sleepers After Thirteen Years, Melbourne, Examination Finds Sound as Ever, 255
Concrete, Tests of Effect on Strength of Certain Additions, 341
Copper Industry in U.S.A., Organisation of Producers to Promote Collaboration, 599
Copper Mine, Western, in British Columbia, 685
Copper-nickel Ore in Ontario, Huge Deposit Estimated, 177
Corundum Claims in Rusape District, South Africa, Reported Activities, 149
Cranes, Electrical, Required for Cape Town and Amsterdam, 369
Crude Petroleum Production in the U.S.A., 281
Cumberland, Hodbarrow Mining Company's New Shaft, 255

## D

DEAF Taught to Speak by "Voice Vision," 657
Death of Mr. Allan Crombie, 13
Death of Dr. Eugene Haanel, 41
Death of Mr. William Samuel Scott, 629
Death of Mr. James Taylor, 309
Deep-water Pier at Kirkcolm, Possibilities under Discussion, 746
Dehydrating Glauber's Salts in Saskatchewan, Plant to be Put up, 629
Demolition of Wreck Blocking One of the Passes into the Mississippi River, 739
Detroit, Book Tower to be Tallest Building in the World, 281
Diamond Drilling in Chelmsford District of Ontario and Disclosure of Lead Zinc and Copper Ore, 425
Diamonds on South-West African Coast, 397
Diatomaceous Earth Deposits, Factory to Utilise, 416, 483
Diesel Engines Installed for Power in Copper and Zinc Mine in Northern Quebec, 623
Distillation of Wood and Production of Wood Creosote, Plant being Put up at Borschum, South Russia, 657
Dock Railway Improvements at Garston Planned, 341
Dog Train Hauling Sledge Over Snow, Value of Work, 539
20,000,000-Dollar Merger of Steel and Tin-plate Companies in Ohio, 483
Double Dry Grinder, B. R. Rowland and Co., Ltd. (Correction), 56
Drainage Pump, Novel Form for Coal Pit, 177
Duralumin as Substitute for Steel for Mine Tubs and Baskets in Collieries, 739
Durban Town Council's Projected Expenditure of One Million Pounds, 739
Dynamite as a "Safe" Explosive, 229

## E

ECONOMISER Explosion in a Lancashire Mill, 685

**ELECTRICAL MATTERS:**

Alternator Weighing 67 Tons Travels Long Road Journey, 425
Australian General Electric Company's New Factory, 41
Automatic Sub-station in the Rand Refinery, 711
British Columbia, Proposed Development of Shuswap Falls for Electrical Supply, 599
Burrinjuck, New South Wales, Delayed Electricity Scheme, 149
California Power Companies Transmitting to Long Distances and High Pressure, 511
Canada's Electric Power Systems, 629
Canadian Electrical Code for Wiring and Installation of Apparatus, 13
Carbon Brushes for Dynamos and Motors, Xylophone Test for, 455
Central Electricity Board Seeks Architect's Advice, 455
Central Scotland Electricity Scheme, 1927, 41
Cooking and Heating by Electricity at Wimbledon, 203
Dartford's Increased Use of Electricity, 95
Drives, Electrical, in the Papermaking Industry, 436
Durban, South Africa, Extension of Electricity Supply to the Kloof District, 511
Electrical Apparatus Industry of Canada, All-round Expansion, 569
Electric Cord to Act as Push Button, Numerous Valuable Uses of, 123
Electric Ploughing, R. Borlase Matthews, 635
Electrical Tube, Marvellous Sensitiveness, 569
Electricity Commissioners' Regulations, 46
Electricity Consumption for Trade Purposes in Switzerland, 69
Extension of Electricity Plant at East London, South Africa, 539
Farm Electrification and its Cost, 203
Farm, Public, Near Stockholm, Experiments with Electricity for Growing Vegetables, 369
Farmers Grouping in Victoria to Secure Cheaply Electrified Farms, 341
Gatineau Power Company, Great Designed Capacity, 397
Gatineau Power Company, Progressive Use of Power, 203
Generating Plant Extensions in Cape Town, 369
Generator for New York Edison Company, Huge Capacity of, 455
German Power Stations, Industrial Stations, Results for 1925, 309
Germany's Electrical Exports and Imports, Analysis of, 369
Grose River, New South Wales, Proposed Use of Waters for Electric Power, 203
Hackney Power Station Plant Increase, 203
Heating by Electricity, Enormous Increase in Use of, in Switzerland, 569
High-pressure Power Station, 368
Higher Walton Mills, Electrification Scheme for, 13
Hydraulic Turbines in Californian Powerhouse, Reported Very High Efficiency, 511
India, Bangalore, Question of Electrical Application to Heating and Cooling; also Electrically Operated Refrigerators, 229
India's Increased Imports of American Electric Machinery, Fittings and Goods, 123
Italian Supply of Electricity, New Hydro-electric Station Completed at Mozanno, 69
Japanese Electric Power Companies Oppose Government Proposals to Begin Electric Operations, 69
Kligenburg Electric Power Station, Details of Plant and Working, 569
Leningrad Factory for Production of Electric Meters, 123
Liverpool's Increased Demand for Electric Power, 739
Locomotives, Electric—*see* Railways
Mafeking's Extension of Electricity Plant, 369
Member of Electricity Board as Director in Company, Question Put to Minister, 123
Motors and Rotors, Contrasts, 309
Mukden High-tension Overhead Wires to be Replaced by Underground Cables, 629
Newcastle-upon-Tyne Electric Supply Company, 149
Ottawa Power Company's Plant at Bryson to be Doubled, 739

**ELECTRICAL MATTERS** (*continued*):
Paisley Town Councils Electric Lighting Scheme, 13
Paris District, Power Supply from the Eguzon Hydro-electric Station, 203
Power Line, New, 100 Miles Long, for Quebec, 450, 483
Power Station, New, Started Working at Sunderland, 255
Power Transmission Line Between Ottawa River and Toronto, 569
Precipitation, Electrical, of Dust Produced in Manufacture of Brown Coal Briquettes, 123
Recording Instruments Operated by Electric Current, Value of, 123
Soviet Union, Electrification of, 599
Steel Mill Electrification in 1926, Harry A. Winne, 95
Stourport, Addition to Electrical Plant, 599
Sweden, Electric Power Plant Construction in Hand, 397
Tasmania, 88,000-Volt Transmission Line, 507
Transmission Systems, Interconnection of, 203
Turbo-alternator, 12,500-kW, Parsons, at Perth, W. Australia, Conditions of Working, 69
Turbo-generator, 300-kW, Suggested Cause of Failure, 425
United States Electric Power Companies, Eighteen with Output Exceeding 1,000,000,000 kWh, 123
Victorian Electricity Commission's Acquisition of Sorrento Electric Light Undertaking, 149
Water Heaters of Greater Capacity than 3 kW Forbidden in Victoria State, 309
Yallourn Power Station, Victoria, Installation of Another Unit, 331

ELECTROLYSIS Damage in Victoria, Australia, Permanent Investigation Committee, 157
Electro-plating with Chromium, Combine for, 177
Electro-plating Solutions and Processes 203
Empire Council of Mining and Metallurgical Institutions, 595
*Engineering News-Record*, Death of Editor, 358

**EXHIBITIONS**:
Antwerp, International Exhibition in 1930, 397
British Industries Fair, Considerable Enlargement of Space Allotted, 599, 629
British Industries Fair, 1928, Previous Space Records Broken, 203, 455
Chemical Industries Eleventh Exhibition in New York, 123
Fourth Machine Tool and Engineering Exhibition, 1928, 700
International Aeronautical Exhibition in Prague, 13
International Exhibition at Barcelona, 13
International Fair at Salonica, 131
International Industrial Exhibition in Turin, 281
Inventions Exhibition, 424
Machine Tool and Engineering Exhibition in 1928, 345, 700
Model Engineers' Exhibition, 270
Newcastle-upon-Tyne Projected Exhibition, 177
Physical and Optical Societies Exhibition, Date Fixed in 1928, 490
Sydney, Projected British Empire Exhibition, 309

EXPLODING Wire Experiments, Professor H. N. Russell, 95
Explosion of Cast Iron Steaming Box in Textile Factory, Comments on, 149
